

## 1 Benefit from cutting-edge R&D facilities

– Get access to a remarkable range of major, pioneering research infrastructures, such as a 3<sup>rd</sup> generation synchrotron facility, space technology platforms, petaflop high-performance computers, ultra-high performance electron microscopes, nanotechnology platforms or medical imaging equipment. There's a reason why Paris-Saclay is ranked among the top 8 innovation & technological clusters in the world by the MIT Technology review!

– Find a network of open innovation facilities for both entrepreneurs and creative communities: fablabs, incubators, coworking spaces, but also networking events, showrooms and so on.

**With 15% of the French R&D in Paris-Saclay, you will find everything you need to develop new products or services.**

## 2 Join a powerful industrial network

– Paris-Saclay offers an exceptional density and variety of major industrial players in 5 strategic sectors: Health; ICT; Smart Energy; Aerospace-Security-Defense and Future Urban Mobility.

– Around 150 international companies have settled at Paris-Saclay, employing more than 38,000 people.

**Horiba, GE Healthcare, Siemens, Air Liquide or Nokia (to name a few) have already chosen Paris-Saclay! Will you be next?**

## 3 Find highly-skilled talents

– Université Paris-Saclay offers 49 Master's degrees and represents 65,000 students, 5,000 PhD students and 9,000 researchers or professors in 300 laboratories.

– With some 105,800 executives and engineers in the private sector, Paris-Saclay is the 3<sup>rd</sup> largest employment area for managers and engineers in France.

**Headhunting has never been so easy!**

## 4 Get easy access to markets

– Move smoothly thanks to our clean mobility solutions and innovative digital services.

– Ship your products via our immediate access to the highway network.

– Go visit your partners and clients from our Massy TGV station and 2 international airports. By 2024, line 18 of the Grand Paris Express Metro will connect the Paris-Saclay urban campus to Orly international airport in just 15 minutes!

**Plug in and get on tracks!**

## 5 Enjoy modern and affordable working spaces

– Paris-Saclay boasts a diversified business real-estate offer where you can find a solution tailored to your needs. From co-working spaces and latest generation offices to under construction sites for R&D centers and industrial parks, Paris-Saclay offers a wide range of opportunities.

– Besides, your business will benefit from very high speed telecommunications infrastructures and datacenters.

**Our business real-estate offer will adapt to your needs as your business grows up!**

## 6 Test your products and services on a large innovation playground

– With innovations ranging from smart mobility (real time transit information, smart parking systems, shared electric cars and bicycles), to digital services (community data collection, coding platform, interactive map) and energy saving (smart grid), your business will derive all the benefits of a high-quality territory energized by the innovative and sustainable spirit of its communities. In Paris-Saclay, you can conceive a new product from A to Z, from fundamental research to market launch.

– As a privileged industrial demonstrator, Paris-Saclay welcomes all companies with a desire to test out innovations and new products and services.

**Try us and see bigger!**

## 7 Take advantage of an amazing quality of life at the doors of Paris

– Come and enjoy a wide variety of remarkable landscapes including lush forests, wooded hills and rivers.

– The area is richly endowed culturally and historically with the Château de Versailles, and in the field of sports with the National Golf Course (welcoming the 2018 Ryder Cup) and Velodrome in Saint-Quentin-en-Yvelines or the French national Rugby Center in Marcoussis. Make the most out of the area's vibrant urban life with its national theatres, 2 national operas, innumerable cinemas and restaurants.

... And if you still miss the big city, Paris is just a stone's throw away!

**Do not just work here. LIVE here!**
